

Welcome to the new face of computing

Featuring an ultra compact design and nearly silent operation, the zTech Cube PC is the sleek new face of desktop computing. Standing at a mere 7" tall, these babies feature P4 Processors up to 3 GHz with up to 1 GB of DDR Ram. All configurations include 6 high speed USB 2.0 ports, Firewire, and 10/100 LAN on-board.

Above: The front panel of the zTech Cube includes ports for headphones, microphone and line inputs, as well as USB 2.0 and IEEE1394 Firewire

Left: The Cube also includes a high speed Ethernet port for plug and play connectivity to your broadband internet service or local area network.

Our Cubes are built with a Shuttle chassis and run Windows XP using either Intel or AMD processor technology.
