

IT SERVICES

For companies and individuals alike, zTech is the place to go for all your IT needs. From virus removal and computer cleanup to custom-built PCs and servers, to network implementation from the ground up, zTech offers a level of service that's unmatched.

IP SECURITY CAMERA SYSTEMS

Imagine having the ability to digitally record up to 256 security cameras on a single computer. Imagine being able to access and control your cameras over the internet, from anywhere in the world. zTech makes it possible with our revolutionary zNVR Network Video Recording System. Record Digitally. Store Securely. Access Anywhere. We will be showing a demo at the Orbit Technology Expo.

CUSTOM COMPUTERS - THE CUBE

Check out the new face of computing. The zTech Cube features an ultra compact design and super quiet operation. Standing at a mere 7" tall, the zTech Cube PC harnesses the power of Intel Pentium 4 processors and Windows XP. And with front panel access to USB 2.0, Firewire, and headphone ports, these could just be the most convenient PCs ever.

We will be appearing in Booth 6 at the **ORBIT** Technology Expo.
Wednesday April 14th, 2004 - 1:00 pm - Anthony's Pier 9
